

Building a global movement against genocide in Palestine

A global movement of solidarity has emerged in response to the barbarity of the new genocide against the Palestinian people. Despite intense repression, this movement is bringing together millions across the world.

For 77 years, imperialists have been trying to destroy and drive out the Palestinian people, exploiting the horrific genocide of the Jews in World War II to justify dispossession, ethnic cleansing, and genocide. Since October 2023, Israel has been trying to destroy Palestinian life in Gaza, to replicate the Nakba of 1948, committing itself in turn to a genocide without parallel in the 21st century. Meanwhile, settlers are stepping up their attacks in the West Bank, Palestinians inside the green line face greater discrimination than before and Israel has carried out military attacks against Lebanon, Syria, and Iran.

The direct participation or deep complicity of most of the Western imperialist powers is now clear, as is that of the Arab countries that are “normalizing” their relations with the genocidal state, while in many other countries, the ruling classes make polite criticisms but distance themselves from any real resistance. All this in the name of a sickening “right of Israel to defend itself,” which attempts to portray the aggressor as the victim and vice versa.

Resistance in the face of repression

Fortunately, in much of the world, millions have mobilized to demand an end to the massacres, the blockade of Gaza, and sanctions against Israel. They have faced ruthless repression, including bans, imprisonment, police and judicial attacks, and false accusations of antisemitism.

The March for Gaza and the Soumud Convoy attempted to break the blockade of Gaza and bring aid to the Palestinians. The repression they were met with in Egypt and Libya showed the appalling complicity of those regimes. Thousands were beaten, intimidated, arrested, and sent back to their countries of origin, with little response from their governments.

The Freedom Flotillas, carrying world-renowned personalities, also attempted, more symbolically, to break the blockade. It succeeded in further highlighting the Zionist state's total contempt for international law, its contempt for truth and any limit to its jurisdiction, symbolizing its unlimited colonialism.

In a number of countries, it is simply forbidden to express solidarity and assert demands, like in Algeria, where the government claims to support Palestine but prevents solidarity from being expressed.

In the United States and elsewhere, protests and occupations have been banned or attacked violently by the state. University teachers have been sacked for supporting the movement. Students and people of colour, especially anyone from the Middle East, have been particular targets of repression.

Criminalization of solidarity organizations is another key tactic. The British government declared the direct action movement Palestine Action to be a terrorist organization, support for which is a criminal offence – lawyers, vicars and other notables were all arrested at an immediate protest action. The French state has been threatening to dissolve Urgence Palestine since April but has not yet done so perhaps because of a major international campaign of objections.

In Germany, tens of thousands of people who have mobilized are facing relentless repression. False accusations of antisemitism are being used to ban demonstrations, shut down

media outlets, and discredit the entire movement. While the weaponisation of antisemitism is a particular problem in Germany, it is used against the movement everywhere – including against Jewish organizations asserting “Not in our name”.

In the state of Israel, even if a large majority of the Jewish population supports the action of the army, there is a reaction against the war crimes committed to the Palestinians, the actions of the settlers in the West Bank and the policy led by the far-right government of Netanyahu, in particular the criminal will to expel the population of Gaza.

Hypocrisy is rife as governments attack and criminalize all demonstrations of support and solidarity for the Palestinian resistance of whatever limited form – such as chants at a music festival – yet refuse to condemn and take sanctions against Israel.

But it is, of course, in Palestine that repression is most intense. In the West Bank, attacks have intensified in recent months, with daily attacks by settlers against Palestinians and the destruction of homes. It has also emerged that Israel has armed and financially supported Palestinian gangs and jihadist groups in order to undermine the resistance in Gaza from within.

The massacres in Gaza continue; in one month, more than 600 Palestinians were killed while waiting for food aid. Food distribution points are death traps. Several studies now suggest that hundreds of thousands of Gazans have died in the last two years.

Palestinian resistance is a key to the global situation

The Palestinian people are resisting the second Nakba and their expulsion from their territory with the means at their

disposal. So far, despite famine, terrible living conditions, and murderous attacks, they are standing their ground, refusing to disappear, and defending themselves.

The international solidarity movement has helped to expose the reality and scale of the genocide. It has mobilized millions, and the boycott divestment and sanctions campaign together with mass mobilizations can isolate this criminal regime as has happened before, for example for apartheid South Africa

This movement will not stop.

The fate of the Palestinian people is intimately linked to that of all oppressed peoples and the fight against global imperialist ambitions. We are living in a period of growing inter-imperialist contradictions but one which has limits too. Russia for example did not back Iran when Israel launched military attacks against it. The Israeli and US attacks on Lebanon, Syria, and Iran, and the complicity of Arab states point to the fact that the imperialist powers, led by the US, want to strengthen their domination over every inch of the globe in a period of intense economic and ecological crisis. And the Middle East remains one of the – if not the central – strategic battlefield.

Preventing the continuation of colonization in Palestine, pushing back Israel and the United States, and liberating Palestine from imperialism are key points in the global shift in the balance of power that we must build to change the world. Therefore, the Fourth International calls for redoubled efforts to build a global movement against genocide and for the liberation of Palestine, through mass and workers' action in particular. We will work to ensure that, on the occasion of 7 October 2025, broad mobilizations contribute to changing the balance of forces.

Trump's first six months: A threat to our planet and its peoples

The election of Trump represents the coming to power of a neofascist leadership in the main imperialist country of the world, who is actively fuelling the genocide of the Palestinian people. This represents a further shift to the right in the international balance of forces, and strengthens the Orbans, Modis, Melonis, Bolsanaros and others.

Since assuming office on January 19, 2025, after winning a close election with a plurality of the popular vote, the Trump presidency has pursued a deeply reactionary agenda, threatening democratic rights in the US and aggression for the rest of the world. Trump also represents a particularly virulent threat to the US working class and oppressed communities throughout the world. One of his main fronts is his attacks on LGBTIQ*, particularly trans people, which is in line with large parts of the international far right including Putin. This is part of Trump's general reactionary social agenda with vicious attacks on racialized minorities, women's reproductive rights, migrants, climate change denial, hostility to democratic rights, readiness to use violence, a contempt for democratic processes and checks and balances, and a drive for total power.

The generalization of trade tariffs is an ideological

obsession of Donald Trump, and this announcement was a show of imperial force from the first days of his mandate. But fears of internal economic impacts and announced retaliations, notably from the BRICS, made Washington step back and contributed to the crisis of hegemony of US imperialism. The 50% tax on Brazil's imports in US, with openly political purposes "punishes" the Brazilian government to pave the way for Bolsonaro and others coup plotters to escape lawsuits. Contradictorily, the measure opened a new and positive political moment in the country.

His drive for total power aided and abetted by the Republican party and a section of the US judiciary makes him a would-be authoritarian and neo-fascist, and strengthens the hands of the far right worldwide. While opposition has not been banned and democratic rights not completely eliminated -indicators of neo-fascism- the tendency in that direction is clear.

The US has long been the biggest abuser of fossil fuels. Under Trump the US has left the ineffectual COP international climate change association, has given the green light to oil companies to increase fossil fuel extraction and use, and US regulatory documents have been scrubbed of all reference to climate change.

The Trump administration has launched a particularly cruel police-military campaign of persecution and deportation against millions of migrants, mostly Latin Americans and South Asians. With its cynical rhetoric equating all immigrant workers with criminals, it has turned El Salvador into a Guantánamo for hire. This campaign emboldens the most reactionary white supremacist forces.

Trump's attacks against elite US universities cynically accuse them of antisemitism for insufficiently cracking down on pro-Palestinian protests. This repression has chilled the Palestine Solidarity movement and the rights of free speech. The labelling of pro-Palestinian demonstrations as antisemitic

serves to cover up the real antisemitism nourished by Trump's racist speech and policy.

Trump and his allies recently passed a reactionary budget giving enormous tax benefits to the ultra rich paid directly by cuts to Medicaid, a program of government health insurance used by seventy-one million people, and food stamps for the poorest.

Trump's open threats to annex the Panama canal, Canada, and Greenland represent a return to naked nineteenth century imperialism. On Ukraine, Trump is seeking a predatory deal with Putin (with whom he shares many far-right ideological ideas) to share out areas of influence at the expense of the people who are the victims of the Russian state's colonial war.

After the political shock in the European powers faced with the disengagement rhetoric from Trump on NATO, this alliance recovered its historical place – the scenario of European subordination – when Trump used it to show European obedience to US orders for the increase of arms expenditure.

While the America First policy guides Trump's bellicosity to its allies, the recent attack on Iran reminds us that the US will not hesitate to use military force where its interests are threatened.

Trump continues Biden's and all US presidents' military and political support for Israel. His threat to empty the Gaza strip of its inhabitants and turn the area into a luxury resort would be a crime of world historic importance.

The Democratic party has shown itself to be totally ineffective in opposing Trump. This is mostly because the Democratic party serves the same 1% as the Republicans.

The huge and enthusiastic rallies of AOC and Bernie Sanders reflect the depth of anti-Trump sentiment. The recent victory

of Mamdani in the New York City Democratic Party primary also represents a challenge to the Democratic Party establishment and his progressive social agenda shows the potential to elect progressive and anti-capitalist public officials A mass anti-Trump movement in the streets has arisen over the last few months. Millions have participated in thousands of anti-Trump demonstrations in thousands of cities and towns across the country. Immigrant workers have been at the forefront of this resistance. These demonstrations encourage those resisting far-right governments around the world.

The Bureau of the Fourth International solidarizes with the growing anti-Trump movement.

Down with the Trump regime!

Down with all US threats to other countries and peoples!

Hail the heroic protests in Los Angeles!

Stop US fossil fuel expansion!

Stop the war on migrants!

Self-determination for Ukraine!

Stop US support for the Israeli genocide in Gaza!
