Rising Clyde Show – the Scottish climate justice show.

Rising Clyde examines the key issues and the big challenges facing the struggle for climate justice in Scotland. After the surprisingly big and hugely diverse protests in Glasgow during COP26, how can the breadth of that movement be held together, how can we build on its energy?

- After the suspension of Cambo, can the movement stop any more new oil or gas projects in the North Sea?
- How can we wind down the whole oil and gas industry in Scotland in this decade, while ensuring no layoffs and decent new jobs for all those affected?
- Was the Scotwind auction a major step on the transition to renewable energy, or a sell-off of the family silver?
- How can an independent Scotland tolerate one of the most unequal and damaging systems of land ownership on the planet

For half an hour on the first Monday of each month, we'll be talking to activists and experts about these and many other issues that will shape this country's future.
