Review – For the Earth to Live: The Case for Ecosocialism by Allan Todd

“For the Earth to Live” is a compelling and essential read for anyone seeking a radical and comprehensive understanding of the interconnected ecological and social crises facing our world. Written by Allan Todd, with a foreword by Professor Julia Steinberger, it emerges as an unapologetic and passionately argued case for ecosocialism.

The book distinguishes itself by its direct and unwavering commitment to ecosocialist principles, boldly asserting the necessity of uniting ecological concerns with socialist solutions. In an era often characterised by cautious and diluted discourse, “For the Earth to Live” offers a bracingly clear analysis and position, advocating for a political direction that is uncompromisingly pro-ecology and pro-socialism. It actively seeks to combine “Pessimism of the intellect, optimism of the will,” drawing on the wisdom of Antonio Gramsci to provide both a stark awakening to the realities of our situation and a powerful call to action.

A significant strength of this work lies in its well-informed and thoroughly cited analysis. Todd presents a treasure-trove of political, historical, and scientific evidence to contextualise the climate, biodiversity, and health threats we face within our prevailing political and economic systems. The book is structured logically, building from an exposition of ecological dangers to examining political and economic threats, culminating in a powerful argument for revolutionary ecosocialist politics as the necessary response. The extensive referencing provides readers with an excellent foundation for further exploration and independent understanding.

“For the Earth to Live” makes a significant contribution by aiming to articulate a majoritarian perspective for ecosocialism. It moves beyond the notion of ecosocialism as a fringe ideology, presenting it as the potential “political home of the majority of humans on planet earth” and of the rest of life on Earth. This book offers a more accessible pathway for arguing for ecosocialism as a vital project for the 99 percent.

Furthermore, the book actively seeks to counter the understandable despair that can arise when confronting the severity of the ecological and political challenges. By promoting Gramsci’s “optimism of the will,” it encourages readers to see “horizons even in the darkest night,” fostering the determination needed to continue the struggle for a better future. It explicitly states that ecosocialism offers the “best hope for replacing today’s ‘old order’ with a new one”.

The author doesn’t shy away from highlighting the dire warnings from climate, ecological, and pandemic-health science reports, illustrating the interconnected crises facing our environment and the failures of current political responses. The book also touches upon the historical context of humanity’s relationship with nature, including the more harmonious approaches found in Indigenous societies, suggesting important ways forward.

In conclusion, “For the Earth to Live” is a vital and inspiring contribution to the literature on ecosocialism. It combines a rigorous and well-researched analysis with a passionate and hopeful call to action. By directly confronting the crises of our time and offering a clear and compelling alternative, this book will likely be an essential resource for activists, scholars, and anyone seeking a pathway towards an ecologically sustainable and socially just world. It encourages readers to embrace “optimism of the will” grounded in a clear understanding of the challenges, ultimately arguing that our best chance for the Earth to live lies

with ecosocialism.

Reviewed by Duncan Chapel, “For the Earth to Live” is published by Resistance Books and is available here.

Allan Todd is an ecosocialist/environmental and anti-fascist activist. He is a member of Anti-Capitalist Resistance and Extinction Rebellion North Lakes (Cumbria), and is the author of *Revolutions 1789-1917* (CUP), *Trotsky: The Passionate Revolutionary* (Pen & Sword), *Ecosocialism Not Extinction* (Resistance Books), and *Che Guevara: The Romantic Revolutionary* (Pen & Sword).

Allan will speaking about the book at a free event in Glasgow at 7pm on 21st May 2025. For further details of the event and to reserve a copy of the book see Mount Florida Books
