

Trump's first six months: A threat to our planet and its peoples

The election of Trump represents the coming to power of a neofascist leadership in the main imperialist country of the world, who is actively fuelling the genocide of the Palestinian people. This represents a further shift to the right in the international balance of forces, and strengthens the Orbans, Modis, Melonis, Bolsanaros and others.

Since assuming office on January 19, 2025, after winning a close election with a plurality of the popular vote, the Trump presidency has pursued a deeply reactionary agenda, threatening democratic rights in the US and aggression for the rest of the world. Trump also represents a particularly virulent threat to the US working class and oppressed communities throughout the world. One of his main fronts is his attacks on LGBTIQ*, particularly trans people, which is in line with large parts of the international far right including Putin. This is part of Trump's general reactionary social agenda with vicious attacks on racialized minorities, women's reproductive rights, migrants, climate change denial, hostility to democratic rights, readiness to use violence, a contempt for democratic processes and checks and balances, and a drive for total power.

The generalization of trade tariffs is an ideological obsession of Donald Trump, and this announcement was a show of imperial force from the first days of his mandate. But fears of internal economic impacts and announced retaliations, notably from the BRICS, made Washington step back and contributed to the crisis of hegemony of US imperialism. The 50% tax on Brazil's imports in US, with openly political purposes "punishes" the Brazilian government to pave the way

for Bolsonaro and others coup plotters to escape lawsuits. Contradictorily, the measure opened a new and positive political moment in the country.

His drive for total power aided and abetted by the Republican party and a section of the US judiciary makes him a would-be authoritarian and neo-fascist, and strengthens the hands of the far right worldwide. While opposition has not been banned and democratic rights not completely eliminated -indicators of neo-fascism- the tendency in that direction is clear.

The US has long been the biggest abuser of fossil fuels. Under Trump the US has left the ineffectual COP international climate change association, has given the green light to oil companies to increase fossil fuel extraction and use, and US regulatory documents have been scrubbed of all reference to climate change.

The Trump administration has launched a particularly cruel police-military campaign of persecution and deportation against millions of migrants, mostly Latin Americans and South Asians. With its cynical rhetoric equating all immigrant workers with criminals, it has turned El Salvador into a Guantánamo for hire. This campaign emboldens the most reactionary white supremacist forces.

Trump's attacks against elite US universities cynically accuse them of antisemitism for insufficiently cracking down on pro-Palestinian protests. This repression has chilled the Palestine Solidarity movement and the rights of free speech. The labelling of pro-Palestinian demonstrations as antisemitic serves to cover up the real antisemitism nourished by Trump's racist speech and policy.

Trump and his allies recently passed a reactionary budget giving enormous tax benefits to the ultra rich paid directly by cuts to Medicaid, a program of government health insurance used by seventy-one million people, and food stamps for the

poorest.

Trump's open threats to annex the Panama canal, Canada, and Greenland represent a return to naked nineteenth century imperialism. On Ukraine, Trump is seeking a predatory deal with Putin (with whom he shares many far-right ideological ideas) to share out areas of influence at the expense of the people who are the victims of the Russian state's colonial war.

After the political shock in the European powers faced with the disengagement rhetoric from Trump on NATO, this alliance recovered its historical place – the scenario of European subordination – when Trump used it to show European obedience to US orders for the increase of arms expenditure.

While the America First policy guides Trump's bellicosity to its allies, the recent attack on Iran reminds us that the US will not hesitate to use military force where its interests are threatened.

Trump continues Biden's and all US presidents' military and political support for Israel. His threat to empty the Gaza strip of its inhabitants and turn the area into a luxury resort would be a crime of world historic importance.

The Democratic party has shown itself to be totally ineffective in opposing Trump. This is mostly because the Democratic party serves the same 1% as the Republicans.

The huge and enthusiastic rallies of AOC and Bernie Sanders reflect the depth of anti-Trump sentiment. The recent victory of Mamdani in the New York City Democratic Party primary also represents a challenge to the Democratic Party establishment and his progressive social agenda shows the potential to elect progressive and anti-capitalist public officials. A mass anti-Trump movement in the streets has arisen over the last few months. Millions have participated in thousands of anti-Trump demonstrations in thousands of cities and towns across the

country. Immigrant workers have been at the forefront of this resistance. These demonstrations encourage those resisting far-right governments around the world.

The Bureau of the Fourth International solidarizes with the growing anti-Trump movement.
